RING + WATCH = FINGER WATCH

Since 2010, moco has been creating watches based on the concept of "dressed up the time."

moco finger watches are more than just tools for telling time.

By incorporating elements of accessories, they express your individuality and enrich the way you spend your time.

These finger watches are meticulously handcrafted one by one in our Tokyo atelier, using silver and gold as the materials.

DRESSED UP THE TIME

I believe time is more valuable than any jewel. I think that people who have their own time can enrich their lives.

I hope that the moco finger watches I create will become a special companion that shares time with you.
